

HIV Edmonton presents...

★
Aug. 29 - Sept. 1, 2008

★ Body ★ ★ Mapping ★

★
Body mapping is a unique opportunity for people living with HIV/AIDS to create a very personal self-portrait in a safe, respectful and welcoming environment. While working closely with an artist to learn how to create this self-portrait, participants will also learn more about body systems, treatment side effects, HIV treatments, and increase their mind/body/personal history awareness.

Please contact HIV Edmonton to express interest in participating in this unique learning opportunity. There are a limited number of seats available, so call now to register!

This opportunity is only open to people living in Edmonton.
